JANKOWSKI THOMAS

BLOCKCHAIN DEVELOPER
WEB3 - DEFI - SMART CONTRACTS

PORTFOLIO

PROFIL

Full Stack Developer passionate about blockchain and Web3 technologies, with 4 years of experience in web and mobile application development. Alyra-certified, I design and deploy Solidity smart contracts, dApps, and decentralized solutions. With expertise in Next.js, React, and Node.js, I blend technical mastery with product vision to build the infrastructure of tomorrow.

PROJETS

DAPP DEVELOPER – ALYRA CERTIFIED

CERTIFICATION PROGRAM - JANUARY → APRIL 2025

- Design and deployment of Solidity smart contracts on EVM networks (testnet/mainnet).
- Development of a dApp interface using React/Next.js, connected to smart contracts via Wagmi.
- Unit and integration testing with Hardhat & Ganache.
- Wallet management, on-chain signatures, and transactions using MetaMask and WalletConnect.
- Exploration of ERC-20, ERC-721 (NFT), and ERC-1155 standards.
- Smart contract security: reentrancy patterns, access control, and OpenZeppelin best practices.

EXPÉRIENCES

WEB & MOBILE DEVELOPER – GESTIMUM

FULL TIME - OCTOBER 2024 (PRESENT)

- Development and maintenance of business-oriented web and mobile applications (Next.js, TypeScript, Tailwind CSS, React Native).
- Contribution to technical architecture and continuous performance improvement.
- Deployment and monitoring of applications in production environments (Docker / GitLab CI/CD).
- Work on solutions integrating APIs, web services, and automation.

FULL-STACK DEVELOPER – GESTIMUM

APPRENTICESHIP – SEPTEMBER 2022 TO SEPTEMBER 2024

- Development and enhancement of the G-Formation website, including advanced customization for training sales.
- Design and development of a React Native mobile application for remote data entry, integrated with the Gestimum CRM.
- Creation of a specialized AI for Gestimum documentation and WebServices (Ollama, OpenWebUI).
- Development of a secure middleware for Gestimum WebServices (authentication, redirection, and flow security).
- Complete redesign of the Gestimum private portal.
- Development of an internal ticket management application.
- Creation of Express.js APIs to interface Gestimum with external clients.
- Migration of all applications to an Ubuntu server and containerization with Docker.
- Deployment, maintenance, and monitoring of applications.
- Implementation of automated transactional emails and notifications.

EDUCATION

BLOCKCHAIN CERTIFICATION

Alyra

- Develop a decentralized application using blockchain technologies

MASTER'S DEGREE

IngéSup Paris (Nanterre)

- Master's Degree (MSc) in Web Development Expertise
